

Adjusting Your Mac Java Settings

If you are having trouble uploading events or adding images using Apple Safari you may need to adjust your java settings. Before you begin make sure you have the latest updates from Apple Update.

1) Go to the "Applications" folder.

2) Click on the "Utilities" folder.

3) Click on the "Java" folder.

4) Click on the "J2SE 5.0" folder.

5) Double Click to Open "Java Preferences."

Under the button marked "General" make sure the "Java Version" is set to **J2SE 5.0**

In the "Java Applet Runtime Parameters" type:

```
-Xms128M -Xmx300M
```

With a single space between the two sets of code.

Click Save.
